

Wireless Communications

In today's world, everyone relies on cellular phones. Unfortunately, too many people go to cellular stores that sell exclusively for one carrier. By doing that, they really aren't getting the complete picture because each carrier is different in their rate plans, coverage areas and the quality of the system behind that phone. That's why Answer Page represents two of the finest carriers – U.S. Cellular and Sprint/Nextel.

Let us find the perfect fit for your cellular needs.

At Answer Page, we listen closely to how you want to use your phone, where you travel, what features you like and the style of phone you prefer. Only then do we recommend the ideal combination for you.

Information & Entertainment

Mention Answer Page and most people think of answering services, paging, voice mail or cellular services. But did you know we also offer Clearwire and Dish Network? Clearwire provides high-speed wireless Internet to your home or business. Clearwire is very fast, very affordable, and even portable. So it's great for travelers.

clearw're[®]
wireless broadband

Dish Network uses the latest satellite technology to deliver an unbelievable range of broadcasting choices. Many of the channels are currently delivered in high-definition – with more on the way. No other provider can compete with that.

From basic to special services, we have you covered.

- Answering Service
- Cellular Service
- Paging
- Voice & Fax Mail
- Order Entry
- Alpha Dispatch
- Wake-up Service
- Mail Delivery
- Vacation Coverage
- Radio & Alarm Monitoring
- Wireless Internet Service
- Dish NetworkTV, HDTV

Freedom to communicate.

Answering Service

For just pennies a day, you can hire a full-time secretary – a secretary who will answer your important calls while enhancing your reputation for professionalism. With our 24-hour answering service our highly trained operators will answer your phone quickly and courteously. We'll get the information you need from the calling party. Then, according to your instructions, we'll get that information to you so that you can follow up with those customers and clients who are so important to you. Let us show you how we can help you operate more efficiently and more economically. You pay a lot of money to make your phone ring. Let Answer Page make sure you never miss another call.

Virtual Office Services

It's a concept whose time has come. It's called the "virtual office". Now business people can escape the confines of four walls, the phones, fax, copiers and hardware that tie you to a specific location. In today's world, your office can be wherever you are – any time of the day or night with the help of Answer Page. We have the technology to answer your phones just like your personal secretary. We can speed that information along to you immediately via phone, fax, e-mail or text messaging on your wireless device. You might be on the golf course, at the lake, or in an important meeting, but wherever you are, you're in touch and ready to respond. Let us design a virtual office for you.

Paging Service

Do you ever wonder why virtually all law enforcement officers, firemen, emergency responders, doctors and hospital staff carry a pager?

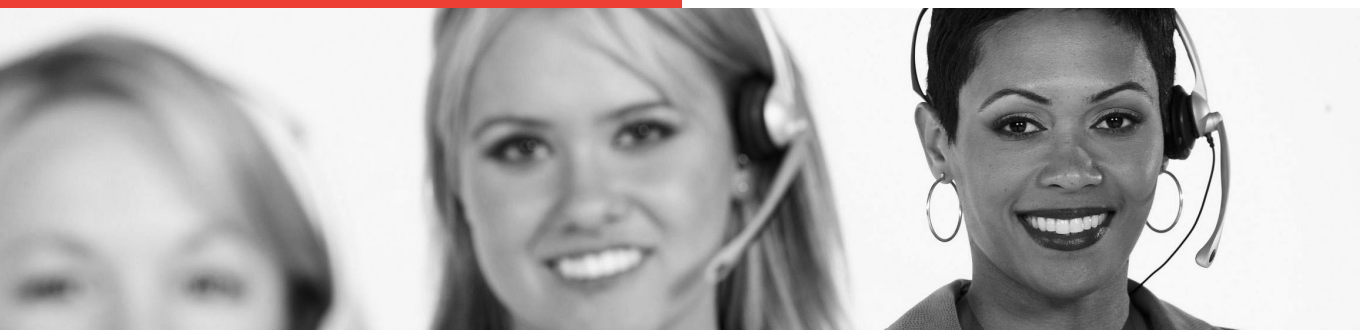

Simple - It's still the fastest, most reliable, most economical way to receive information.

Our new alpha-numeric, wide area pagers give you the entire message within seconds – not hours or days from the time it was sent. Each message is time and date stamped and then stored in the unit itself until you're ready to respond. With a pager, you can screen your messages and keep cell costs down. And, unlike cell phones, pagers are never intrusive. Let us show you how to get the message every time quickly and economically.

Voice Mail & Fax Mail

Only Answer Page offers a combination of features that truly maximize your voice mail system – like live operator revert that allows the caller to speak directly to a live operator at any time during the conversation. We can also tie our paging system directly to your voice mail to notify you immediately each time a message is left or, if you prefer, only when the caller designates their call as an emergency. Answer Page's voice mail system is extremely user-friendly and can be customized to fit your specific needs.

Customized to fit your specific needs for just pennies a day.

At Answer Page, you'll get more than you expected for less!
